U.S. Fire Arms Mfg. Co., Inc. (USFA) Hartford's Largest Gunmaker – Introduces New Model 12/22™

Hartford, Connecticut - September 20, 2008. U.S. Fire Arms Mfg. Co. (USFA) in Hartford, CT, today proudly announce the New Model 12/22™ a new and innovative design (Patent Pend) for a full size 12 shot .22 cal. Revolver. USFA has shot many thousands of rounds through the new 12/22 and it performs....an accurate, durable, robust new design that has never been done before. USFA even beat all .22 Auto-loading pistols in magazine capacity – a meaningful increase of 20%.

This gun has a new lockwork (Patent Pend) to accommodate the 12 shot cylinder. This innovative design is accomplished by unique changes to the internals and a new ratchet design. It works very fast actually going through all proper benchmark stages in ½ the normal timing yet continues the full hammer travel and look we have grown accustomed to.

U.S. Fire Arms Mfg. Co. • 445 Ledyard Street • Hartford, CT 06114 • Direct Phone 860-296-7441 www.usfirearms.com

The New
Model 12™

USFA makes history with the largest capacity ever achieved in the "Old Six-Shooter."

The New Model 12/22™ beats the magazine capacity of any .22 Auto Pistol ever offered.

Now reborn as a classic full sized Single Action with twelve round capacity it beats .22 Autos by 20%...!

An Amazing accomplishment to have engineered such a smooth full cocking action and to achieve the critical benchmark positions; 1. Safe, 2. Loading, 3. Cylinder Lock-up in just 30 degrees of rotation! Normally it takes 60 degrees to achieve cylinder lock-up.

The New 12/22™ is fast loading too! One of the unique features of the 12/22™ is that it is designed to load 2 cartridges at a time through the traditional loading gate!

Quicker loading time and more "Trigger Time" means more enjoyment and satisfaction on the range!

Six Shots just doesn't do it anymore-12 shots is just more fun!
